IT people

Portal and Intranet Services

Streamline Communications and Collaborate More Easily

Effective organizations are those that provide timely and accurate information to employees and enable knowledge sharing.

SharePoint and Liferay technology can facilitate information and knowledge sharing in organizations using functionality such as enterprise wide search, document management and internal social networks.

By applying these technologies using proven methodologies, understanding of business process, and collaboration challenges, IT People ensures delivery of required results for each organization it works with.

Why IT People?

- Immediate and flexible access to industry leading SharePoint and Liferay professionals
- Our approach to customer engagement ensures the best talent mix for expert delivery, high-quality results and cost optimization
- Global resources that accelerate operational cycle, reduce time-to-market and lower costs
- Unlimited access to talent and scalability
- A sole source for managed services; application development, support and maintenance; portal and intranet services; project management; and QA and testing services

Governance

Document management, version control, integrity, access, retention, and risk reduction.

IT Impact (Solution)

| SharePoint to Extend LOB | Faster Deployment | Unified Access Control |

Process Impact (Time)

| Simplified Data Entry & Access | Faster Process with Automation | Fewer Errors & Rework |

Business Impact (Money, Agility, Strategy)

| Reduced IT Cost | Increased User Adoption | Reduced Training Costs | Increased Output | Self-Service Cost Reduction | Better & Faster Decisions | Reduced Risk |

Our Process

➦ IT People's process and methodology takes nothing for granted and leaves nothing to chance. We deliver portal technology that improves business process, enables better collaboration, and on every engagement, we lead by example.

➦ We work alongside our clients to deliver the best possible outcome. We engage stakeholders and analyze requirements. With direction set, we design interactive prototypes to refine the solution then build the portal.

➦ We deploy first to a testing environment for QA and user-experience testing, then to production.

➦ After delivery we follow up with activities to help ensure high levels of user adoption and long-term governance.

About IT People

IT People is a next-generation IT services and workforce solutions firm. We provide consulting, managed services and staffing to Fortune 500 corporations, public agencies, and small and mid-sized businesses throughout North America. Our specialties include IT modernization, infrastructure and applications optimization, and management. We enable organizations to achieve their business goals by transforming their IT processes, applications and infrastructure using the latest technologies for cloud, big data, mobile and social, and by providing them with exceptional talent when they need supplemental staff.

Our Vision and Mission

We are passionate about co-creating value with our customers and employees by offering IT services through applied thought and innovation with the commitment and integrity to deliver quality solutions on time, every time.
