

# Re-platforming Services

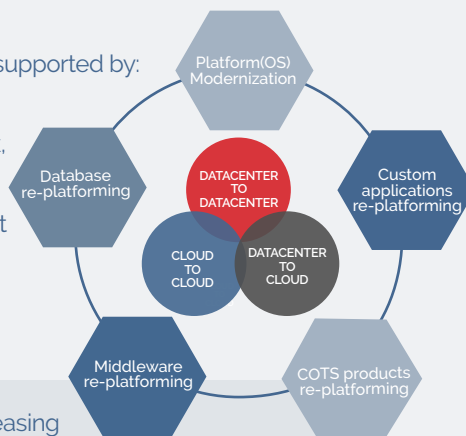

## Reduce business risk and improve your business agility

IT People provides re-platforming services that help you move away from expensive, legacy platforms and decrease support & maintenance costs. We help you move away from legacy applications that are tightly coupled and hampering business agility.

We cover all re-platforming scenarios that arise out of infrastructure optimization, infrastructure virtualization, datacenter consolidation, datacenter migration, cloud adoption, cloud migration.

We apply a strong re-platforming methodology that is supported by:

- ➔ Our proven complexity determination framework, estimation model
- ➔ Our ISO 9001:2008, CMMI Level 3 certified project scheduling & project delivery processes

## Why IT People?

At IT People, we focus on reducing business risk & increasing business agility. We provide end-to-end re-platforming services to our customers starting from strategy & advisory services to implementation.

Our end-to-end value proposition to Customers, for re-platforming services, is based on :

- ➔ A strong Consulting practice with expertise in providing strategy & advisory services for Portfolio rationalization & transformation
- ➔ A strong Delivery team with many person years of experience in various re-platforming services
- ➔ Strong eco-system of talent with many person years of experience in Project Management, QA
- ➔ ISO 27001 certified processes for Information Security
- ➔ Our Core + Flex delivery model that provides flexible resource levels to Customer

## Benefits

- ➔ Improved availability of applications and infrastructure
- ➔ Improved experience for business users and end users
- ➔ Improved ability to handle peaks & troughs in traffic easily
- ➔ Faster response & resolution times from support & maintenance perspective
- ➔ Move away from proprietary to standards-based, highly interoperable infrastructure
- ➔ Lower TCO to maintain & support applications, infrastructure

# IT People Re-platforming Services

## OS modernization

- Windows 2003 to 2008/2012
- \*NIX to Windows
- \*NIX to Linux
- Windows to Linux
- z/OS to Windows
- z/OS to Linux
- To VMWare VDI
- To Citrix VDI
- To AWS, OpenStack
- To Azure

## Custom applications

- Microsoft applications (.NET, SharePoint)
- Java based applications

- Legacy to Java based middleware
- Microsoft middleware to Java based middleware
- Java based middleware to Microsoft middleware
- Legacy Microsoft to Microsoft
- Legacy Java to Java

## COTS products

- ERP applications (on-premise, SaaS)
- CRM applications (on-premise, SaaS)
- Microsoft COTS applications (Exchange, Office 365, AD/IAM etc)

## Database

- \* to SQLServer
- \* to MySQL
- \* to Oracle
- \* to NOSQL Databases

## IT People Re-platforming Methodology

### Level 1 Discovery

- ➔ Understand business priorities & establish goals of re-platforming
- ➔ Prepare an inventory of entities to be modernized/re-platformed
- ➔ Understand current state details – technology stack, interfaces, performance benchmarks etc
- ➔ Document any key improvements, interdependencies that need to be taken care as part of re-platforming

### Level 2 Architecture & Strategy

- ➔ Define target state platform(s)
- ➔ Group various entities into clusters and define re-platforming approach for each cluster
- ➔ Identify candidates for Pilot to cover a good sample & prepare Pilot implementation plan
- ➔ Prepare high-level implementation plan entities identified for main Project
- ➔ Define Governance model, establish metrics & KPIs for overall engagement

### Level 3 Implementa - tion

- ➔ Execute Pilot
- ➔ Document learnings & refine implementation approach
- ➔ Prepare firm implementation plan for entities identified for main Project
- ➔ Implement re-platforming main project using our global delivery model & re-platforming Factory
- ➔ Track metrics & report on a regular basis

### Level 4 Continuous Evolution

- ➔ Implement continuous improvement initiatives to improve effectiveness
- ➔ Identify opportunities for automation & implement where applicable
- ➔ Implement knowledge management initiatives to remove dependency on individuals

## About IT People

IT People is a next-generation IT services and workforce solutions firm. We provide consulting, managed services and staffing to Fortune 500 corporations, public agencies, and small and mid-sized businesses throughout North America. Our specialties include IT modernization, infrastructure and applications optimization, and management. We enable organizations to achieve their business goals by transforming their IT processes, applications and infrastructure using the latest technologies for cloud, big data, mobile and social, and by providing them with exceptional talent when they need supplemental staff.

## Our Vision and Mission

We are passionate about co-creating value with our customers and employees by offering IT services through applied thought and innovation with the commitment and integrity to deliver quality solutions on time, every time.
